OPERATING INSTRUCTIONS

These dispensers are designed to use a standard No. 5 Tin that your product came in as the insert bowl (an optional stainless steel insert bowl is available from your nearest Gold Medal dealer. Order No. 2199, see Price List).

1. Place bowl spring in water tank.
2. Fill water tank to the top of the bowl spring with hot water.
3. Place No. 5 Tin or insert bowl into the unit. (Bowl spring should be centered under the container).
4. Place lock ring over container, press down and turn until it locks into unit.
5. Turn switch in Lead-in Cord "ON".
6. Turn heat control to the extreme hot position for quick buildup of heat; after contents are heated, turn the heat control back to desired position.

Clean your machine daily. A clean looking well-kept machine is one of the best ways of advertising your product.
