Installation Instructions

Inspection of Shipment:

Unpack all cartons and check thoroughly for any damage that may have occurred during transit. Damage claims should be filed immediately with the transportation company. Gold Medal Products is not responsible for damage that occurs in transit.

Setup:

Your new Cheese Display Case is assembled and tested at the factory. Remove all packing material and tape before starting operation.

Electrical Requirements:

The following power supply must be provided:

5582: 120v, 60Hz, 528W, 4.4 amps

5583: 120v, 60Hz, 603W, 5.03 amps

Your electrician must furnish sufficient power for proper machine operation. We recommend this Display Case be on a dedicated and protected circuit. Failure to wire properly will void the warranty and may result in damage to the machine.

It is Gold Medal Products Company's recommendation that this machine be plugged directly into a wall outlet. The use of extension cords is not recommended due to safety concerns, and may cause sacrificed and/or reduced performance.

Before You Plug In Machine:

1. Make sure the wall outlet can accept the grounded plugs (where applicable) on the power supply cord.
2. The wall outlet must have the proper polarity. If in doubt, have a competent electrician inspect the outlet and correct if necessary.
3. **DO NOT** use a grounded to un-grounded receptacle adapter.

Operating Instructions

Controls and Their Functions:

The lighted rocker switch controls the element, blower fan and light bulbs. The fan circulates air over the thermostat controlled element which keeps the cheese portion packs warm inside the cabinet.

Care and Cleaning:

The stainless steel cabinet can be kept clean by using a warm, damp cloth to remove all dirt and grease spots. The acrylic doors should also be kept clean. DO NOT use ammonia based cleaners. Clean the inside and outside of the acrylic doors with a soft cloth and a non-abrasive cleaner.

MAINTENANCE INSTRUCTIONS

	 DANGER Do NOT immerse the equipment in water. Unplug your machine before servicing.
	 WARNING Adequate eye protection must be used when servicing this equipment to prevent the possibility of injury.
	 CAUTION THE FOLLOWING SECTIONS OF THIS MANUAL ARE INTENDED ONLY FOR QUALIFIED SERVICE PERSONNEL WHO ARE FAMILIAR WITH ELECTRICAL EQUIPMENT. THESE ARE NOT INTENDED FOR THE OPERATOR.
